"EATING IS NOT MERELY A MATERIAL PLEASURE. EATING WELL GIVES A SPECTACULAR JOY TO LIFE AND CONTRIBUTES IMMENSELY TO GOODWILL AND HAPPY COMPANIONSHIP. IT IS OF GREAT IMPORTANCE TO THE MORALE"

ELSA SCHIAPARELLI

Thursday, January 22nd 2015 - Grangetown Primary School and St Pauls Primary School brought their favorite recipe from home. Some brought main course recipe, and some brought dessert recipe. By using colored papers, rubber band, string, dry ingredient - such as pasta, rice, and herbs the students create a collage based on the recipe that they have brought.

The workshop aims to fully understand Grangetown's population, food culture, and their daily habit. The research will lead us to a deeper understanding of the community's interest in food and its process, and help generate ideas that suits the living culture of the community.

The project aspires to design a community center that brings people together. A place that holds knowledge of food, so we could understand what goes into our body as part of understanding ourself.

225g potatoes, cubed

150 ml double cream or

Salt and freshly ground pep-  
per

## COOKING STEPS

- 1** Heat the oil in a large pan and add the onions, potatoes and leeks. Cook for 3-4 mins until starting to soften.
- 2** Add the vegetable stock and bring to the boil. Season well and simmer until the vegetables are tender.

# TOMATO SOUP

---

*It is also known as Vichyssoise, and is believed to have originated in France*

## INGREDIENTS

1-1.25kg ripe tomatoes  
1 medium onion  
1 small carrot  
1 celery stick  
2 tbsp olive oil  
2 tbsp tomato puree  
Pinch of sugar  
2 bay leaves  
1.2l hot vegetable stock  
(made with boiling water and 4 rounded tsp bouillon powder or 2 stock cubes)

## COOKING STEPS

**1** Firstly, prepare your vegetables. You need 1-1.25kg ripe tomatoes. If the tomatoes are on their vines, pull them off. The green stalky bits should come off at the same time, but if they don't, just pull or twist them off afterwards. Throw the vines and green bits away and wash the tomatoes. Now cut each tomato into quarters and slice off any hard cores (they don't soften during cooking and you'd get hard bits in the soup at the end). Peel 1 medium onion and 1 small carrot and chop them into small pieces. Chop 1 celery stick roughly the same size.

**2** Spoon 2 tbsp olive oil into a large heavy based pan and heat it over a low heat. Hold your hand over the pan until you can feel the heat rising from the oil, then tip in the onion, carrot and celery and mix them together with a wooden spoon. Still with the heat low, cook the vegetables until they're soft and faintly coloured. This should take about 10 mins and you should stir them two or three times so they cook evenly and don't stick to the bottom of the pan.

**3** Holding the tube over the pan, squirt in about 2 tbsp of tomato puree, then stir it around so it turns the vegetables red. Shoot the tomatoes in off the chopping board, sprinkle in a good pinch of sugar and grind in a little black pepper. Tear 2 bay leaves into a few pieces and throw them into the pan. Stir to mix everything together, put the lid on the pan and let the tomatoes stew over a low heat for 10 mins until they shrink down in the pan and their juices flow nicely. From time to time, give the pan a good shake – this will keep everything well mixed.

**4** Slowly pour in the hot stock, stirring at the same time to mix it with the vegetables. Turn up the heat as high as it will go and wait until everything is bubbling, then turn the heat down to low again and put the lid back on the pan. Cook gently for 25 mins, stirring a couple of times. At the end of cooking the tomatoes will have broken down and be very slushy looking.

**5** Remove the pan from the heat, take the lid off and stand back for a few seconds or so while the steam escapes, then fish out the pieces of bay leaf and throw them away. Ladle the soup into your blender until it's about three quarters full, fit the lid on tightly and turn the machine on full. Blitz until the soup's smooth (stop the machine and lift the lid to check after about 30 seconds), then pour the pureed soup into a large bowl. Repeat with the soup that's left in the pan. (The soup may now be frozen for up to 3 months. Defrost before reheating.)

**6** Pour the pureed soup back into the pan and reheat it over a medium heat for a few minutes, stirring occasionally until you can see bubbles breaking gently on the surface. Taste a spoonful and add a pinch or two of salt if you think the soup needs it, plus more pepper and sugar if you like. If the colour's not a deep enough red for you, plop in another teaspoon of tomato puree and stir until it dissolves. Ladle into bowls and serve. Or sieve and serve chilled with some cream swirled in.

# RASPBERRY RIPPLE ICE

---

A favourite in Great Britain

## INGREDIENTS

250g raspberries, plus extra to serve  
225g caster sugar  
2 large eggs plus 4 egg yolks  
600ml double cream  
Sliced mango, sprinkles, or cones, to serve

## COOKING STEPS

**1** Place the raspberries and 2 tbsp of the sugar in a small pan. Cook on a medium heat until sugar dissolves. Simmer for 5 mins until thickened, then push through a sieve into a bowl and discard the seeds left in the sieve.

**2** Place the eggs, egg yolks and remaining sugar in a bowl. Whisk with an electric whisk to combine, then place over a pan of gently simmering water – make sure the bowl isn't actually touching the water. Beat with the electric whisk for 3-4 mins until thick and pale. Remove from heat and continue beating until cool.

**3** In another bowl, whisk the cream until it forms soft peaks, then gently fold into the cool egg mix until just combined. Pour the mix into a shallow container or dish that can be frozen.

**4** Gently swirl the raspberry coulis through, cover with cling film and freeze for at least 6 hrs. Serve scoops in bowls with sliced mango and extra raspberries, or scoop into cones and top with sprinkles for the kids.

# MASHED POTATO

---

*A dish prepared by mashing boiled potatoes*

## INGREDIENTS

680G Yukon Gold potatoes,  
peeled and cut lengthwise into  
quarters  
½ tsp salt  
4 tbsp heavy cream  
2 tbsp butter  
1 tbsp milk  
Salt and pepper

## COOKING STEPS

**1** Place the peeled and cut potatoes into a medium saucepan. Add cold water to the pan until the potatoes are covered by at least an inch. Add a half teaspoon of salt to the water. Turn the heat on to high, and bring the water to boil. Reduce the heat to low to maintain a simmer, and cover. Cook for 15 to 20 minutes, or until you can easily poke through them with a fork.

**2** While the potatoes are cooking, melt the butter and warm the cream. You can hear them together in a pan on the stove or in the microwave.

**3** When the potatoes are done, drain the water and place the steaming hot potatoes into a large bowl. Pour the heated cream and melted butter over the potatoes. Mash the potatoes with a potato masher. Then use a strong wooden spoon (a metal spoon might bend) to beat further. Add milk and beat until the mashed potatoes are smooth. Don't over beat the potatoes or the mashed potatoes will end up gluey. Add salt and pepper to taste.

# STRAWBERRY ICE CREAM

---

*Perfect for Summer*

## INGREDIENTS

500g strawberries  
175g caster sugar (plus 2  
tbsp)  
500ml full fat milk  
500ml double cream  
1 vanilla pod  
10 large egg yolks  
2tbsp lemon juice

## COOKING STEPS

**1** Hull and roughly chop the strawberries, put them into a bowl and sprinkle over the 2 tbsp of caster sugar and leave them to steep and infuse with flavour.

**2** Pour the milk and cream into a heavy based saucepan, and add the vanilla pod, split down the middle lengthways. Bring the pan nearly to the boil and then take it off the heat and leave to infuse for 20 minutes.

**3** In a large bowl whisk the egg yolks and the sugar until thick and pale yellow. Take the vanilla pod out of the milk and cream and pour, whisking all the while, the warm liquid over the yolks. Put the cleaned out pan back on the heat and stir the custard until it thickens, then take it off the heat and pour it into a bowl to cool.

**4** Puree the strawberries in a processor and when the custard is cool fold in the lemon juice and strawberry puree.

**5** At this point you can either freeze the ice cream in an ice cream maker, or in a plastic tub in the freezer. If you do the latter you should whip it out every hour for 3 hours as it freezes and give it a good beating, either with an electric whisk, by hand or in the processor. That gets rid of any ice crystals that form and that make the ice cream crunchy rather than smooth.

# CHICKEN & CHORIZO RICE

---

1 tbsp oil  
8 chicken pieces or 1 whole chicken, jointed

## COOKING STEPS

- 1** Heat the oil in a large flameproof casserole dish and brown the chicken pieces on all sides – you may have to do this in batches. Remove from the dish and put to one side.
- 2** Lower the heat, add the onion and pepper, and gently cook for 10 mins until softened. Add the garlic and chorizo, and cook for a further 2 mins until the chorizo has released some of its oils into the dish. Stir in the tomato purée and cook for 1 min more.

## CONCLUSION

---

Through the workshop, we conclude that the primary kids are aware of the healthy lifestyle. Infact they have a healthy meal twice a day under the healthy program of the primary school. They are also pretty much involved in the cooking process of their dinner. However, their cooking ingredients come from a commercial supermarket. This does not allow them to investigate their food further as much as they would like to.

As students and makers of this little book, we were deeply inspired by the dedication and excitement of the kids, their creativity and freedom of imagination. They showed us a path that leads to a healthier Grangetown, more aware of the quality of its local products and more motivated to rediscover natural and genuine flavours. There is potential to propose a space that provides a deeper understanding of food as part of the environment. Food as the centre of a community, food as the focus of a place where everybody comes together to share, learn and enjoy everyday life.
